Dauphin Data News

1 General Ceramic Cabinet
Elegant free standing acrylic cabinet with 3 glass shelves, double door with brass hinges and lock. The arched canopy is detachable.
915x455x1575mm high
1830mm high with canopy
GCC

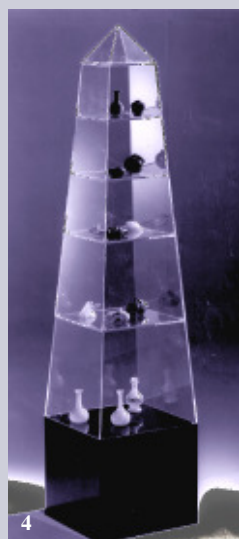

Dauphin's cabinet range is made from clear cast acrylic allowing light to be absorbed with minimum reflection. The housed artefacts are clearly seen, while the surrounding cabinet becomes unobtrusive. The cabinets are free standing or wall mounted, with lockable doors, brass or acrylic hinges. On large models the shelves are made from reinforced glass to support greater weights. Custom designs, incorporating other materials including marble, wood and coloured acrylic can be achieved. To obtain further information or discuss custom designs, please contact as below.
